

Alex Beuscher

Founding Engineer · Full-Stack Builder & Founder-Operator

Amherst, MA · alexbeuscher@gmail.com · 617 359 6971 · alexbeuscher.com · github.com/abeuscher · linkedin.com/in/alex-beuscher-8314157

Full-stack engineer with 25+ years shipping web products end-to-end, most recently building AI-native applications solo from zero to launch. Founder-operator comfortable wearing every hat — architecture, build, and go-to-market — across full-stack web, headless CMS, and applied LLM work. Thrives in small, high-autonomy teams.

Skills

Full-stack: JavaScript/TypeScript, PHP/Laravel, React, Vue.js, Node.js, HTML/CSS, PostgreSQL · Platforms & tools: Filament, Sanity.io, Contentstack, 11ty, Gatsby, WordPress, Shopify API, AWS, Git, Figma · AI: LLM application architecture, RAG, agents, multi-provider (OpenAI, Anthropic, Gemini, Mistral), agentic-coding workflows

EXPERIENCE

Founder & Lead Engineer — NpHelper · Amherst, MA · 2025–Present

Open-source CRM/CMS platform for small nonprofits at flat-rate pricing.

- Designing and building the entire product solo on a Laravel / Filament / PostgreSQL stack using agentic-coding workflows.
- Roadmap driven directly by ongoing nonprofit client work.

Founder — Cannabis E-Commerce Venture · Remote · 2023–2024

- Formed the LLC and built a custom storefront on the Shopify API with dropshipping infrastructure.
- Established supplier and payment-processor relationships end-to-end.

Independent Web & AI Consultant · Amherst, MA · 2024–Present

- CRM migrations, web development, and AI integration/education for nonprofit and private clients.
- Built MAIA, an open-source medical AI assistant for the HIE of One initiative (contract, Jan 2024–Apr 2025): integrated nine LLM engines with consent-based EHR access; became the reference implementation for an international hackathon (Dec 2024) with teams in India, the UK, and elsewhere building on it.

Lead Web Developer — Skydio · San Mateo, CA · 2021–2023

- Led the marketing-site team (two developers, a designer, third-party contractors) on an Eleventy / Sanity.io stack; supported GDPR/CCPA compliance.

Senior Web Developer & Team Lead — Contentstack · Remote · 2020–2021

- Led a remote team in Mumbai building marketing and documentation sites on the company's headless CMS with Gatsby; produced technical documentation.

Senior Web Developer — Dynamic Signal · San Bruno, CA · 2017–2021 (part-time from 2020)

- Remote role managing WordPress, Zendesk, and Marketo implementations; collaborated with the security team on compliance.
- Cut average page load on the public site from ~12s to ~3s with a custom-built theme.

Senior Web Developer — 2K Games · Novato, CA · 2013–2017

- Full-stack development for game title sites and web properties; focus on security, localization, and compliance.

- Helped move web development in-house onto a centralized headless CMS with end-to-end continuous deployment, integrated with 2K's games as well as their websites.
-

Education — B.A., Writing, Literature & Publishing — Emerson College
