

Alex Beuscher

Engineering Leader · Founder-Operator

Amherst, MA · alexbeuscher@gmail.com · 617 359 6971 · alexbeuscher.com · github.com/abeuscher · linkedin.com/in/alex-beuscher-8314157

Founder-operator and engineering leader with 25+ years across web and, recently, applied AI. Has run companies end-to-end, led distributed teams, and owned cross-functional scope from architecture through go-to-market. Fits sub-100-person companies where technical depth and operator range matter more than headcount managed.

Leadership & competencies

Team leadership (distributed/remote), cross-functional ownership, product & GTM, hiring & mentoring, technical architecture · Technical depth: full-stack web (JS/TS, PHP/Laravel, React/Vue/Node, PostgreSQL), headless CMS, applied AI (LLM architecture, RAG, agentic workflows)

EXPERIENCE

Founder — NpHelper & Cannabis E-Commerce Venture · 2023–Present

- Founded and ran two ventures end-to-end: formed the LLC, built product and infrastructure, and owned supplier, partner, and go-to-market relationships.
- Currently building NpHelper, an open-source nonprofit CRM/CMS, solo across the full stack and its business model.

Principal Consultant — Independent Practice · 2024–Present

- Advise nonprofit and private clients on systems change, CRM migrations, and AI adoption; own the engagement end-to-end from strategy to delivery.
- Built MAIA, an open-source medical AI assistant (nine LLM engines, consent-based EHR access; contract, Jan 2024–Apr 2025) — reference implementation for an international hackathon (Dec 2024).

Lead Web Developer — Skydio · San Mateo, CA · 2021–2023

- **Led the marketing-site team** — two developers, a designer, and third-party contractors — running sprint planning, code reviews, and stakeholder communications; supported GDPR/CCPA compliance.

Senior Web Developer & Team Lead — Contentstack · Remote · 2020–2021

- **Led a remote team of eight in Mumbai** as team lead and senior architect, delivering the company's marketing and documentation sites on its headless CMS; project management, code review, and mentorship across time zones.

Senior Web Developer — 2K Games · Novato, CA · 2013–2017

- Full-stack development for game title sites; supervised a junior developer and coordinated with cross-functional teams.
- Helped drive the department's move to in-house development on a centralized CMS with modern source control and continuous deployment.

Online Content Director — WAAF & Mike FM (Entercom) · Boston, MA · 2008–2011

- Managed content creation across the stations' websites, producing video, web, and graphic content; supported sales with branded promotions.
-

Education — B.A., Writing, Literature & Publishing — Emerson College

Other — Voice-over artist (portfolio available on request)
